Things to Consider When Creating Your Sandwich

- 
- What kind of bread is it on?
 - Does it contain meat or is it vegetarian?
 - Does it have cheese?
 - What kind of veggies are on the sandwich?
 - Does it have a sauce like mayo, mustard, hot sauce, etc?
 - Is it served hot or cold?
 - Does your sandwich have a name?
 - Does Kirchhoff's already have it on their menu? You can check www.kirchhoffsbakery.net to make sure your sandwich is original.
 - Will other people want to eat it? If your sandwich is too gross, Kirchhoff's won't want to put it on the menu.
 - Can Kirchhoff's get the ingredients? You want to be creative, but if your ingredients are too wild, too hard to find, or too expensive, Kirchhoff's won't be able to make it. You can look at Kirchhoff's menu or the display in the library for ideas as to what kinds of ingredients they have. You can also research other sandwich shops for ideas.
